Louay Ben Hassine

Lead Product Designer

6+ years in product design. I design telecom super apps, the back offices that run them, and the design systems that let one product carry many brands, for operators across the Middle East and Africa.

Experience

Lead Product Designer, Keyrus MEA

Apr 2021 to present, Tunis, Tunisia

Zain Bahrain, 2024 to present
Sole product designer on the new Zain app: telecom, payments, shop and tickets for five account types and three customer segments. Built its variable system: 266 color variables in three modes.

Omniflow CX Suite, 2022 to present
Lead product designer, with two designers, on Keyrus's suite for operators: consumer app, business portal, Control Tower back office and Omniflow 360 with the Hermes AI assistant. Set up the semantic token system.

Maroc Telecom, 2024
Product designer from the bid and six scoping workshops to the final design of the new iam.ma shop and the MT Shop app. Led the rebrand of both in four weeks.

Orange MEA, Max it, 2022 to 2023
Product designer on the super app that merged self-care, Orange Money and a marketplace, one core product for eight markets. Designed the marketplace and shared flows, and the first components of its design system. Also designed web and mobile products for other Orange subsidiaries with their local teams.

UX/UI and Graphic Designer, Freelance

Sept 2017 to present, Tunis, Tunisia

Web and mobile interfaces for private clients. Print, social media and brand identity work with H-Design, Hannibal Make App and other clients.

UX/UI Designer Intern, LADAPT Normandie

Aug 2020 to Jan 2021, Rouen, France

Final project: redesign of the back office. User research with interviews, audits and surveys. Site architecture and navigation. Low and high-fidelity wireframes, tested with users on prototypes.

Game Designer Intern, New Technologies

Feb 2018 to May 2018, Ariana, Tunisia

Final project: a 2D online multiplayer mobile game. Rules, features and constraints, navigation, characters and environments, final interfaces.

Certifications
